Dental Special: Save 20%

One of the most common health issues we see here at the clinic is dental disease. Pain and bad breath are two of the most obvious consequences but what many pet owners forget is that dental disease can be the source of serious internal infections. Just as with humans, dental disease can cause serious infections of the heart, kidneys and other organs and can impact the quality and length of your cat or dog's life.

One of the greatest gifts you can give your furry friend is a healthy mouth. Right now through March 31st, 2018, save 20% on any dental procedure. Call the clinic at 530-346-6611 to schedule.

***** February is National Pet Dental Month *****
